ECOWAS Goal Tracker Pilot – Preparatory Phase

Background

The ECOWAS Commission, with World Bank support under the HISWA project, is preparing the regional implementation of the Goal Tracker platform to strengthen monitoring of National Development Plans, the SDGs, Agenda 2063, and ECOWAS Vision 2050.

To ensure readiness in the pilot countries—Senegal, Sierra Leone, Cabo Verde, and Guinea-Bissau—the Commission will support in-country preparatory activities focused on readiness assessments and technical preparation.

Objective

To support pilot countries in preparing for Goal Tracker implementation through national consultations, partnership building, and desk research, ensuring alignment with both national and ECOWAS priorities.

Scope of Work

The preparatory activities will include:

Formalizing partnerships and kick-off

- Introductory meetings with NSOs and key ministries.
- Setting up national focal teams for the pilot.
- Small stakeholder consultations/workshops.

Desk review and research

- Review of existing monitoring frameworks (NDPs, SDGs, Agenda 2063, ECOWAS Vision 2050).
- Mapping of available data systems (ODPs, statistical databases, metadata repositories).
- Assessing institutional capacity for maintaining data and narrative content.
- Developing a preliminary content inventory of policies, roadmaps, and materials.
- Drafting of a readiness note for each country.

Deliverables

- **Institutional and technical assessment report** (max. 10 pages per country).
- **Review of existing data systems** with mapping of ODPs, statistical databases, and metadata repositories.
- **Assessment of institutional capacity** for data and content management.

- **Preliminary roadmap** including system integration requirements, metadata standards, workflows, and content inventories (policies, SDG/NDP docs, logos, narratives).
- **Mission/back-to-office report** from each country documenting meetings and findings.
