

EAST AFRICAN COMMUNITY
QUARTERLY STATISTICS BULLETIN

April – June 2026

Overview

The East African Community (EAC) is the regional inter-governmental organisation of the following Partner States:

- Republic of Burundi
- Republic of Kenya
- Republic of Uganda
- Democratic Republic of Congo
- Republic of Rwanda
- United Republic of Tanzania
- Federal Republic of Somalia
- Republic of South Sudan

EAC headquarter in Arusha, Tanzania.

The East African Community (EAC) is the regional inter-governmental Organisation of the Democratic Republic of the Congo (DRC), the Republics of Burundi, Kenya, Rwanda, South Sudan, Uganda, the Federal Republic of Somalia and the United Republic of Tanzania (URT) with its headquarters in Arusha, Tanzania. The East African Monetary Union (EAMU) Protocol was signed on 30th November 2013 with its main objective of having a single currency for all the Partner States within the EAC region. In order to have a single currency, Article 5 of the EAMU Protocol requires Partner States to attain the following three (3) indicative macroeconomic convergence criteria namely:

5% A ceiling on core inflation of 5%

6% A ceiling of fiscal deficit, excluding grants of 6% of GDP

25% a tax to GDP ratio of 25%

In addition, EAMU requires Partner States to attain and maintain macroeconomic convergence for at least three consecutive years that shall be assessed on the following four (4) performance criteria:

8% A ceiling on Headline inflation of 8%

3% A ceiling of fiscal deficit including grants of 3% of GDP

50% ceiling of gross public debt of 50% of GDP in net present value terms.

4.5% A reserve cover of 4.5 months of imports.

In the run-up for achieving a single currency, the EAC Partner States aim to harmonise statistics among others policies and standards. The EAC secretariat is working towards harmonisation of statistics and is pleased to present the thirteenth EAC Quarterly Statistics Bulletin on International Merchandise Trade Statistics (IMTS), EAC Harmonised Consumer Price Index (HCPI), Monetary and Financial Statistics and Financial Soundness Indicators (FSIs).

The objective of the Bulletin is to provide summary data on the above indicators for policy makers, researchers and other users at the national, regional and international levels.

The data used in the Bulletin is submitted by the National Statistics Offices (NSOs) of the EAC Partner States. NSOs submit the data to the EAC Secretariat on a monthly basis and the data can be accessed through https://eac.opendataforafrica.org.

1 EAC HARMONISED CONSUMER PRICE INDEX (EAC-HCPI)

1.1 Introduction

The Harmonised Consumer Price Index (HCPI) from the Partner States are compiled using common methodologies. The EAC-HCPIs are aggregated from the HCPIs submitted by the six out of the eight EAC Partner States namely Republics of Burundi, Kenya, Rwanda, Uganda, South Sudan and the United Republic of Tanzania (URT). National HCPIs for the Democratic Republic of Congo (DRC) and the Federal Republic of Somalia (FRS) are not included as they were not yet members of the EAC during the setting up of the system for the EAC-HCPI compilation. However, plans are underway for their inclusion. The regional EAC-HCPI is computed as a weighted average of the HCPIs submitted by the six Partner States. The weights were derived as a proportion of the GDP for each of the six Partner States. The current EAC-HCPI has a reference period of 2016/17 Fiscal Year (July 2016 to June 2017).

The Republic of South Sudan recently updated the weights of the National HCPI. One of the main achievements of the new HCPI is the improved geographical coverage from three (3) to ten (10) States that covers the entire country. The Price and Index reference period for the newly introduced HCPI is August 2024. In order to have a continuous series to compile the Regional EAC HCPI, the new HCPI has been chain linked. However, HCPI data for the month of August 2024 for the old series was not available. In order to have an overlap period, the overall mean technique was used to impute the South Sudan HCPI of the old series for the month of August, 2024 and any other missing data in the newly introduced National HCPI.

The HCPI submitted by the Partner States are classified using the recent international standards of classification of goods and services for household final consumption referred to as *Classification of Individual Consumption According to Purpose (COICOP- 2018)*. In addition, classification was also done for specific product categories based on the EAC regional specific needs. The HCPI can be revised when improved data become available. Any changes will be communicated in the next publication.

1.2 EAC Regional Headline Inflation

The EAC-Headline inflation is a price change derived from the EAC-HCPI which is an aggregated index comprised of all goods and services of the National CPI Baskets of the EAC Region. The EAC-HCPI is computed as a weighted average of the national CPI of the participating Partner States.

7.8%
Annual Headline inflation in June 2026.

The Annual Headline (Year-on-year) Inflation for the EAC region as measured by the EAC-HCPI stood at 7.8% in June 2026, down from 10.7% registered in May 2026. A year earlier (June, 2025), the rate was 22.7% (Chart 1 and Table 1.1).

Chart 1: Annual (Year on year) HEADLINE inflation (%) for th EAC region June 2025-June 2026

The month-on-month Headline Inflation for the EAC region stood at minus 0.8% for the month of June 2026 down from 1.2% registered in May 2026. It was 1.8% in June 2025 (Table 1.5).

The Annual Average Headline Inflation

14.2%
Annual Average headline inflation in 2025/26

23.0%
Annual Average headline inflation in 2024/25

The Annual Average Headline Inflation for the 2025/26 Fiscal Year stood at 14.2% compared to 23.0% that was recorded for the 2024/25 Fiscal years.

This decrease was due to decreases that were registered for the Republics of South Sudan from 179.4% to 43.2% while that of Burundi from 33.3% to 18.0% during the same period (Table 1.13)

The Annual Average Headline Inflation for the 2025 Calendar Year was at 22.9% up from 13.5% recorded for the 2024 Calendar year. The increase was mainly due to a high level of inflation (114.7%) and (34.9%) that was registered for the Republics of South Sudan and Burundi respectively (Table 1.15).

1.3 EAC Regional Core Inflation

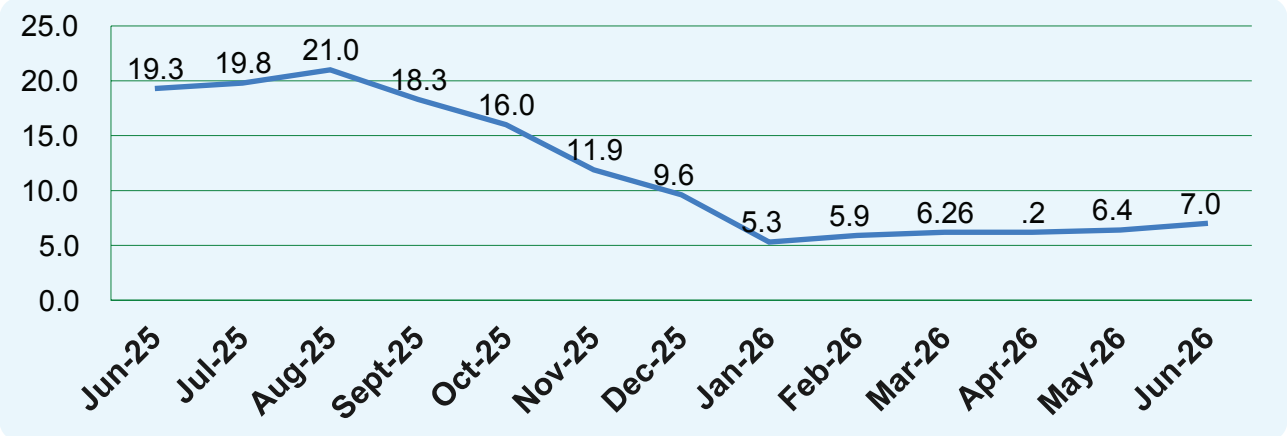

The Core (underlying) Inflation is a price change derived from the HCPI by excluding products whose price movements are transient or volatile.

Products whose prices are excluded are:

- Food crops
- Tobacco leaves
- Fuel (Petrol, diesel, lubricants etc..)
- Fresh milk sold loose
- Energy (solid fuels and gas)
- Utilities (electricity and water).

The Annual Core (Underlying) Inflation for the EAC region as measured by the EAC-HCPI stood at 7.0% for the month of June 2026, up from 6.4% registered in May 2026. A year earlier, the rate was 19.3% in June 2025 (Chart 2 and Table 1.2).

Chart 2: Annual (Year on year) CORE inflation (%) for the EAC Region June 2025 - June 2026

The month-on-month CORE Inflation for the EAC region stood at 0.3% for the month of June 2026, down from 0.8% which was registered in May 2026. It was minus 0.3 % in June 2025 (Table 1.6).

10.8%
Annual Average Core inflation for the EAC region for the 2025/26 Fiscal Year

24.4%
Annual Average Core inflation for the EAC region for the 2024/25 Fiscal Year

The big drop was mainly due to a reduction in the level of inflation registered for the Republics of South Sudan from 185.5% to 30.7% while that of Burundi dropped from 33.7% to 20.0% during the same period (Table 1.14).

The Annual Average Core (underlying) Inflation

The Annual average Core Inflation for the EAC region was 21.2% for the 2025 Calendar Year up from 15.0% recorded for the 2024 Calendar year. The increase was mainly due to a high level of inflation (98.3%) and (35.6%) that was registered for the Republics of South Sudan and Burundi respectively (Table 1.16).

1.3.1 EAC Regional Services Inflation

Service products referred to are:

- Actual Rentals for Housing
- Repair, and Security of the Dwelling
- Transport Services
- Information Services
- Sports Services
- Insurance and Financial Services
- Restaurants and Accommodation Services.
- Education Services
- Recreation Services
- Health Services
- Culture Services
- Communication Services
- Maintenance
- Personal Care and Social Protection services

Thus, Inflation under this category measure price changes of the above listed product categories.

1.7%
Annual Services inflation in June 2026

1.5%
Annual Services inflation in May 2026

The Annual Services Inflation in the EAC region as measured by the EAC-HCPI stood at 1.7% for the month of June 2026 up from 1.5% registered in May 2026. It was 16.9% in June, 2025.

The month-on-month Services Inflation stood at 0.4% for the month of June 2026. Down from 1.1% was registered for the month of May 2026. The inflation was 0.3 % in June 2025.

The Annual Average Services Inflation in the EAC region as measured by the Harmonized Consumer Price Index (EAC-HCPI) was 15.0% for 2025 Calendar Year up from 9.4% recorded for the 2024 Calendar year. The annual average Services Inflation was 6.2% for 2025/26 Fiscal Year compared to 16.1% that was recorded for 2024/25 Fiscal year.

1.3.2 EAC Regional Other Goods Inflation

Products referred to as other goods are processed foods and all other manufactured goods except Energy products, Fuel products and Utilities.

7.3%
Annual other goods inflation in June 2026

6.8%
Annual other goods inflation in May 2026

The Annual Other Goods Inflation for the EAC region as measured by the EAC-HCPI stood at 7.3% for month of June 2026. It was at 6.8% in May 2026 and 22.2% in May, 2025.

The month-on-month Other Goods Inflation stood at 0.2% for the month of June 2026, down from 0.6% which was registered in May 2026. It was minus 0.4% in June 2025.

The Annual Average Other Goods Inflation in the EAC region as measured by the EAC-HCPI was 24.2% for Calendar Year 2025 up from 15.4% recorded for the 2024 Calendar year. The annual average Other Goods Inflation was 12.3% for Fiscal Year 2025/26 compared to 26.9% that was recorded for the 2024/25 Fiscal Year.

1.4 EAC Regional Non-Core Inflation

Non-Core inflation is a price change derived from the HCPI after excluding all products that are used to measure the Core (Underlying) Inflation. The derived HCPI includes prices of the following products: food crops; fresh milk sold loose; tobacco leaves; Energy (solid fuels and gas); Fuel (Petrol, diesel, lubricants etc...); as well as Utilities (electricity and water).

The Annual Non-Core Inflation for the EAC region as measured by the EAC-HCPI stood at 10.4% for the month of June 2026, down from 15.5% registered in May 2026. A year earlier, in June 2025, the rate was 19.9% (Chart 3).

Chart 3: Annual (Year on year)NON-CORE inflation (%) for the EAC Region June 2025 - June 2026

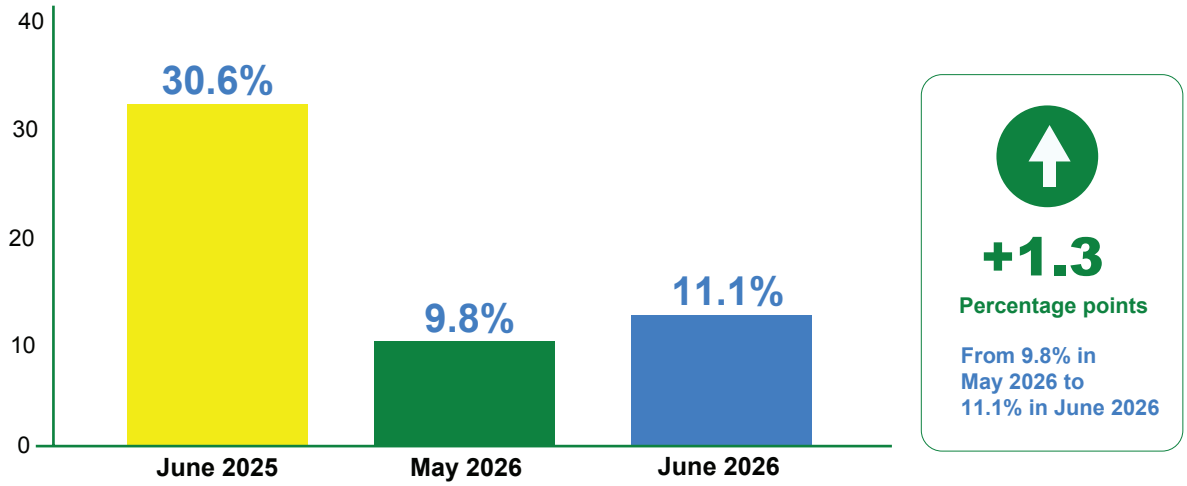

The month-on-month Non-Core Inflation for the EAC region stood at minus 1.6% for the month of June 2026, down from 2.1% which was registered in May 2026. It was 2.9% in June 2025.

The Annual Average Non-Core Inflation in the EAC region as measured by the EAC- HCPI was 19.2% for 2025 Calendar Year compared to 8.0% recorded for 2024 Calendar year. While the annual Average Non-Core Inflation was 16.1% for 2025/26 Fiscal Year compared to 14.6% that was recorded for 2024/25 Fiscal Year.

1.4.1 EAC Regional Food Crops and related Products Inflation

Prices of Food Crops and related Products includes prices of the following products: food crops; fresh milk sold loose; and tobacco leaves. Thus, Inflation under this category measures price changes of the above listed product categories.

Chart 4: The Annual Food Crops and related Products Inflation.

In the EAC region as measured by the EAC-HCPI stood at 11.1% for the month of June 2026, up from 9.8% registered in May 2026. A year earlier, in June 2025, the rate was 30.6%

The month-on-month Food Crops and related Products Inflation stood at minus 0.6% in June 2026 down from 1.6% registered in May 2026. It was minus 1.7 % in June 2025.

The Annual Average Food Crops and related Products Inflation in the EAC region as measured by the EAC-HCPI was 31.5% for the 2025 Calendar year compared to 10.8% recorded for the 2024 Calendar year. It was 18.1% for the 2025/26 Fiscal Year compared to 27.0% that was recorded for the 2024/25 Fiscal year.

1.4.2 EAC Regional Energy, Fuel and Utilities Inflation

Inflation of Energy, Fuel and Utilities (EFU) Product category is measured based on the price changes of the following products: Electricity, Natural gas; Liquefied hydrocarbons, Liquid fuels, Coal, Coal briquettes, Peat, Wood fuel including pellets and briquettes; Charcoal, Other solid fuels, and other energy products for heating and cooling.

The Annual Energy, Fuel and Utilities (EFU) Inflation in the EAC Region as measured by the EAC-HCPI stood at 11.1% in June 2026 down from 14.2% recorded in May 2026. A year earlier, in June 2025, the rate was 6.3% (Table 1.4).

The month-on-month Energy, Fuel and Utilities (EFU) Inflation stood at minus 0.4% in June 2026, down from 2.5% which was registered in May 2026. It was 2.4% in June 2025 (Table 1.8).

The Annual Average Energy, Fuel and Utilities (EFU) Inflation for the EAC region as measured by the EAC-HCPI was 6.5% for 2025 Calendar year compared to 7.8% recorded for 2024 Calendar year. It was 9.7% for 2025/26 Fiscal Year compared to 4.5% that was recorded for 2024/25 Fiscal year.

1.5 EAC Regional Food Inflation

Food products refer to Food Group of COICOP-2018 Classification. The Annual Food Inflation for the EAC region as measured by the EAC-HCPI stood at 10.1% for the month of June 2026, up from 9.5% registered in May 2026. A year earlier, in June 2025, the rate was 37.5% (Table 1.3).

The month-on-month Food Inflation stood at minus 0.1% in June 2026, compared 1.0% which was registered in May 2026. It was minus 0.6 % in June 2025 (Table 1.7).

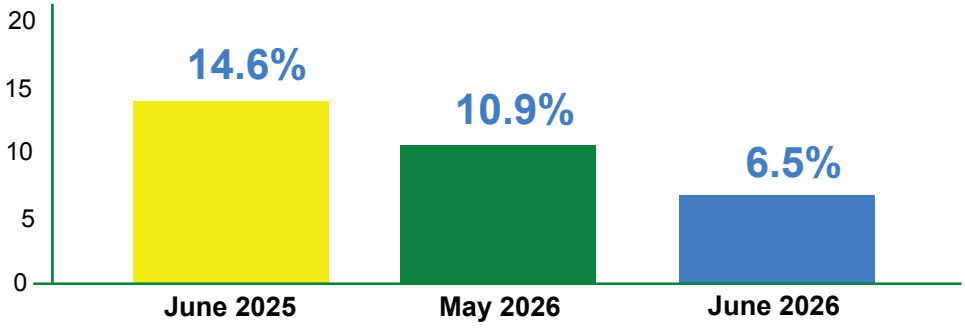

The Annual Average Food Inflation in the EAC region as measured by the EAC-HCPI was at 39.9% for the 2025 calendar year compared to 18.2% recorded for the 2024 Calendar year. It was 20.4% for 2025/26 Fiscal Year compared to 38.5% that was recorded for 2024/25 Fiscal year.

1.6 EAC Regional Non-Food Inflation

Non-Food products category is the entire basket of the EAC-HCPI excluding only the Food Group products as classified by COICOP-2018.

The Annual Non-Food Inflation for the EAC region as measured by the EAC-HCPI was 6.5% in June 2026 down from 10.9% registered in May 2026, it was 14.6% in June 2025.

Chart 5: EAC Regional Non-Food Inflation graph.

The month-on-month Non-Food Inflation stood at minus 1.1% for the month of June 2026 down from 1.3% registered in May 2026. The inflation registered in June 2025 was 2.9%.

The Annual Average Non-Food Inflation in the EAC region as measured by the EAC- HCPI was 14.0% for the 2025 Calendar Year compared to 10.9% recorded for 2024 Calendar year. The annual average Non-Food Inflation for 2025/26 Fiscal Year was 10.3% compared to 15.2% that was recorded for 2024/25 Fiscal Year.

1.7 EAC Regional Annual Inflation for Internationally Classified Product categories

EAC-HCPI is classified into 13 Internationally Classified product categories that reflect the 13 Divisions of COICOP-2018. The 13 COICOP Divisions registered the following Annual Inflation calculated as price changes between the months of June 2026 and June 2025: (Table 1.17)

+7.8%

2 INTERNATIONAL MERCHANDISE TRADE

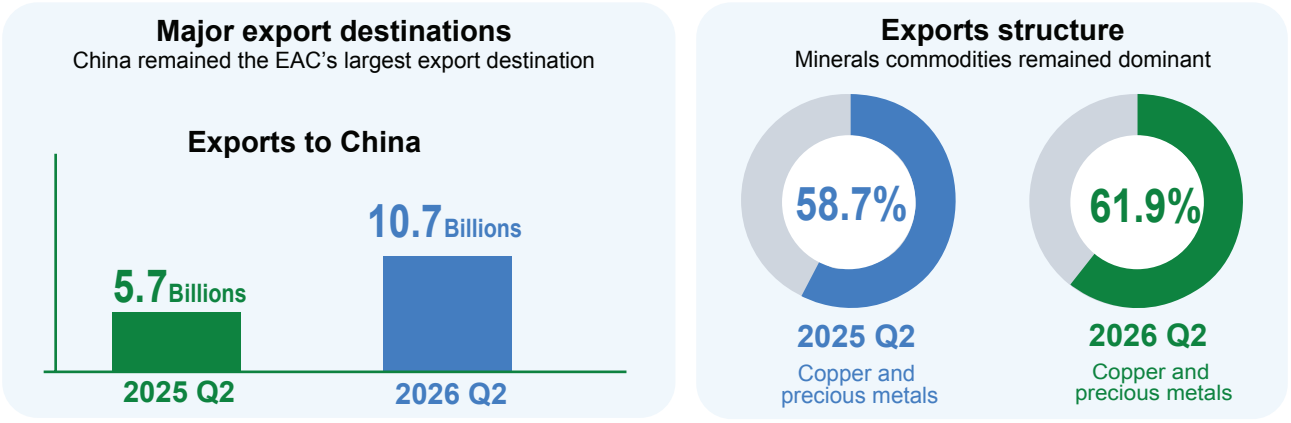

The East African Community (EAC) recorded robust growth in external trade in 2026Q2, with both exports and imports registering substantial increases compared with the corresponding quarter of 2025. The expansion reflects stronger trade activity across the region and increased engagement with both regional and global markets. Total trade increased from USD 38.2 billion in 2025Q2 to USD 52.3 billion in 2026Q2, representing an annual growth of 37.0 percent (Table 2.1). Imports increased by 32.9 percent, from USD 19.6 billion to USD 26.0 billion, while exports grew more strongly by 41.3 percent, from USD 18.6 billion to USD 26.3 billion. The faster growth in exports relative to imports resulted in a significant improvement in the region's trade balance, with the EAC recording a trade surplus of USD 0.3 billion in 2026Q2, compared with a deficit of about USD 1.0 billion in 2025Q2.

Chart 6: Intra EAC trade rose by nearly one-third.

Trade between the EAC and major regional economic blocs continued to expand in 2026Q2, with Africa remaining the largest regional destination for EAC exports, accounting for 27.5 percent of total exports to the world (Table 2.2). EAC exports to African countries increased from USD 5.0 billion in 2025Q2 to USD 7.2 billion in 2026Q2, representing growth of 44.3 percent. Within Africa, exports to the Southern African Development Community (SADC) increased by 50.8 percent to USD 5.1 billion, while exports to the Common Market for Eastern and Southern Africa (COMESA) increased by 48.3 percent to USD 3.1 billion. Intra EAC trade rose by nearly one-third to USD 3.2 billion in the year to 2026Q2. Despite this expansion, its share of total EAC exports edged down from 12.8% in 2025Q2 to 12.1% in 2026Q2, reflecting stronger export growth to non EAC destinations. Trade with other major global blocs also expanded, although growth in trade with ASEAN and the European Union was slower than that recorded in the corresponding quarter of 2025.

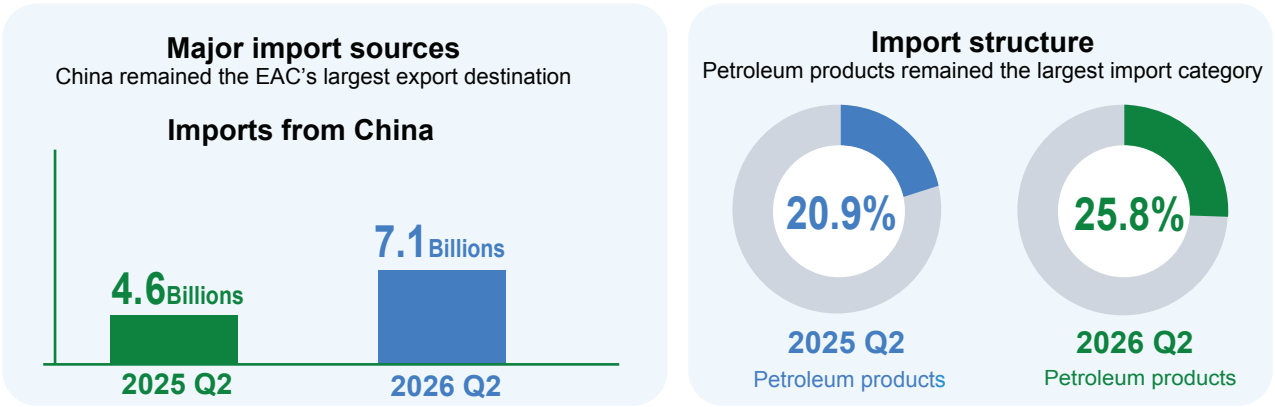

Chart 7: Intra EAC trade rose by nearly one-third, Exports ttrade.

The export structure remained dominated by mineral commodities, particularly copper and precious metals, whose combined share of total exports increased from 58.7 percent in 2025Q2 to 61.9 percent in 2026Q2 (Table 2.3). Agricultural commodities, including coffee, tea and spices, continued to make an important contribution to the region's export earnings.

On the import side, petroleum products remained the largest import category, with their share increasing from 20.9 percent in 2025Q2 to 25.8 percent in 2026Q2, reflecting sustained energy demand and changes in international fuel prices (Table 2.5). Imports of machinery, transport equipment, industrial supplies and manufactured goods also contributed significantly to the region's import bill, reflecting continued investment and economic activity across the region.

Chart 8: EAC Imports Trade, Key highlights.

In terms of individual trading partners, China remained the EAC's largest export destination and source of imports (Tables 2.4 and 2.6). Exports to China increased from USD 5.7 billion in 2025Q2 to USD 10.7 billion in 2026Q2, largely driven by mineral commodities and other raw materials. Imports from China also increased, reaching USD 7.1 billion in 2026Q2, compared with USD 4.6 billion in the corresponding quarter of 2025. Other major export destinations included the United Arab Emirates and South Africa, while major sources of imports included India, the United Arab Emirates and Japan. Overall, the strong performance in external trade reflects the continued expansion of the EAC's engagement with regional and global markets, supported by increased exports, resilient import demand and growing intra-regional trade.

3 MONETARY AND FINANCIAL STATISTICS

The institutions compiled for this publication are the Central Bank and the Other Depository Corporations. The Other Depository Corporations include institutions that take deposits or close substitutes to deposits i.e. commercial banks.

3.1 Interest Rates

10.2%

Uganda had the highest Treasury Bill rate at 10.2%.

In Q2 2026, on the 91-treasury bill rates Tanzania recorded the largest decrease of 60 basis points while Kenya recorded the largest increase of 120 basis points. (Table 3.1). Uganda had the highest Treasury Bill rate at 10.2%.

The lending rate increased for majority of the Partner States with Rwanda recording the highest increase of 30 basis points. Uganda recorded the highest the lending rate of 16.9 % (Table 3.2). Deposit rates increased for majority of the Partner States. (Table 3.3). .

South Sudan recorded the highest interest rate spreads of 15.6% while Rwanda recorded the least spread of 4.3 % (Table 3.4).

3.2 Loans Advanced Per Economic Activity

In Q2 2026, the region recorded an annual increase of 25.6% in loans advanced to the agricultural sector with also the Manufacturing sector recording a marginal increase of 0.9%. The construction and Real Estate sectors also recorded an annual increase of 22.9% and 6.2 % respectively while the wholesale and retail trade recorded a 29.1% increase. The Household sector has the highest outstanding loans amounting to 17.6 billion USD (Table 3.5) followed by Wholesale and Retail Trade sector at 11.6 billion USD.

3.3 Depository Corporation Survey

Year-on-year growth in the broadly defined money supply (M3) increased by 15.3% in Q2 2026. The growth in M3 was majorly supported by the growth in Credit to Private sector (Chart 1). The Credit to private sector recorded an increase of 15.0% as at Q2 2026. The Net Foreign Assets recorded an increase of 19.0% in Q2 2026. (Table 3.6).

Chart 9: Contributions to Year-on-Year Growth in broad money.

*** Provisional as some Partner States are yet to fully capture the intra-EAC transactions.**

4 FINANCIAL SOUNDNESS INDICATORS (FSIs)

FSIs are indicators of the current financial health and soundness of the financial institutions in a country, and of their corporate and household counterparts. The FSIs published below are for the Deposit Takers (DT) i.e. institutions that take deposits. The DT FSIs are analysed using the CA(M)ELS analytical framework of:

C - Capital adequacy

A - Asset quality

E -Earnings and profitability

L – Liquidity

S - Sensitivity to market/FX risks

Partner States are required to compile 43 DT FSIs.

Table 4.1: Total Regulatory capital to risk-weighted assets

The FSI Regulatory capital to riskweighted assets is a measure of capital adequacy and it gauges DTs' capital strength to withstand shocks and absorb unexpected losses. Basel III recommends a minimum of 10.5 percent.

	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
Burundi	19.8	19.7	18.2	17.8	20.7	20.9
Kenya	20.1	20.4	19.9	19.9	20.4	20.0
Rwanda	21.8	21.7	21.6	21.9	22.5	22.0
Somalia	20.6	17.6	16.6	15.3	15.1	15.8
South Sudan	7.60	8.5	8.4	6.0	5.6	4.6
Tanzania	20.9	19.3	19.6	20.5	21.4	19.6
Uganda	26.9	26.2	26.1	25.7	27.3	25.9

Table 4.2: Non-Performing Loans to Total Gross Loans

The FSI Non-performing Loans to Total Gross Loans is a measure of asset quality. An increasing ratio signals a deterioration in the quality of banks' credit portfolio.

	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
Burundi	3.6	3.6	3.4	3.9	3.9	4.3
Kenya	14.1	14.2	13.5	12.3	12.4	11.7
Rwanda	3.3	2.9	3.0	2.9	3.9	3.7
Somalia	2.9	3.8	3.2	3.0	2.8	2.8
South Sudan	1.2	1.3	0.6	0.8	0.8	1.0
Tanzania	3.5	3.3	3.3	2.8	2.7	2.4
Uganda	4.2	3.7	3.7	3.2	3.0	2.7

Table 4.3: Return on Assets

The FSI Return on Asset (ROA) is a measure of earnings and profitability and its intended to measure how efficiently the DTs manage their assets to generate earnings.

	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
Burundi	2.8	3.2	3.1	3.0	3.1	3.0
Kenya	3.6	3.6	3.6	3.8	3.9	4.0
Rwanda	5.0	5.0	5.0	5.0	4.5	4.9
Somalia	0.7	0.8	0.8	0.6	0.9	1.0
South Sudan	0.2	1.0	1.5	1.2	1.7	3.4
Tanzania	5.2	5.0	5.0	4.7	4.7	4.6
Uganda	4.8	4.9	5.0	4.7	5.1	4.7

Table 4.4: Liquid Assets to Total Assets

The FSI liquid assets to total assets are a measure of liquidity and it provides an indication of the liquidity available to DTs to meet expected and unexpected cash outflows.

	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2
Burundi	11.2	9.6	11.8	11.9	9.8	9.0
Kenya	40.1	41.3	41.1	41.8	43.0	41.9
Rwanda	19.5	24.3	22.9	23.7	21.0	21.3
Somalia	49.8	51.9	53.5	53.9	51.0	51.6
South Sudan	22.7	27.8	27.8	27.4	29.1	26.2
Tanzania	26.3	24.6	23.1	23.4	23.3	22.9
Uganda	34.7	38.4	37.2	38.9	37.9	36.9

Table 4.5: Core Capital to Total Deposits

The FSI core capital to total deposit is measure of capital adequacy. The main liability for DT is deposit and this can be an indicator of leverage.

	2025 Q1	2025 Q2	2025 Q3	2025 Q1	2026 Q1	2026 Q2
Burundi	17.4	17.4	15.9	16.1	17.6	16.9
Kenya	17.7	17.9	17.7	17.1	17.5	17.7
Rwanda	20.5	20.4	20.0	19.9	21.2	20.5
Somalia	15.7	14.9	17.2	16.5	16.7	16.2
Tanzania	20.2	18.6	18.5	17.9	19.0	17.1
Uganda	29.4	26.7	26.9	26.1	28.5	25.9
South Sudan	14.4	16.6	14.6	10.5	16.5	12.3
